

## DID YOU KNOW?

That for a **GENERAL PURPOSE SUPPLEMENT**, supplying all the micronutrients required, you need go no further than supplementing your horse's feed with **PURE SEAWEED**?

**NOT ONLY IS SEAWEED VERY EFFICIENT FOR THE PURPOSE; BUT ITS VERY INEXPENSIVE!**  
Up to 50g max daily for 500kg horse (approx 15p cost to you) allows you to make sure your horse's basic diet is nutritionally complete.

**SEAWEED** Contains a wide range of naturally balanced, chelated minerals trace elements, amino acids and vitamins, for general condition, Immune, hoof and skin support. It also aids the horse to digest his feed and cope with stress.

Equus Health sourced **SEAWEED** is **CANADIAN KELP** and is a totally natural supplement being from unique plant origin. (Please be aware that most British sourced seaweed sadly fails trading standards on arsenic levels)

Beneficial to all horses whether stabled or at grass, as an efficient way of filling any nutritional gaps, due to any deficiencies in grazing/ hard feed or in case the horse himself has become/ is depleted in some other way.

Fed in small recommended quantities daily, (as above) **SEAWEED** can only do good, if needed, and no harm if not. It is quite safe for mares in foal even though seaweed is rich in iodine, in moderation, iodine is not harmful to pregnant mares.

Pure **SEAWEED**; the ultimate, cost effective, multi nutrient additive that horses do love!

**ON SALE HERE. 1Kg, 3Kg & 25Kg**

Full analysis of **SEAWEED** available from Equus Health, but Includes Vits A, B1, 2 & 12, C, D & E.  
Over 20 trace elements inc; Calcium/Potassium/phosphorous/sulphur/iron/magnesium/selenium/zinc  
Over 20 amino acids inc; Methionine and Tryptophan.
